PETROLEUM-IMPACTED SOIL CHARACTERIZATION PROFILE

Treatment Facility:

Tonawanda Terminals Corp. Biotreatment Facility
 4635 River Road
 Tonawanda, New York 14150
 NYSDEC Permit No. 9-1464-00002/00005

Business Office:

Tonawanda Terminals Corp.
 2440 Sheridan Drive
 Tonawanda, New York 14150
 (716) 614-1201

Site Information

1) Company Generating Impacted Soil	Address of Facility Generating Impacted Soil (Street, City, State, Zip)		County of Origin
2) Representative of Generator (same as generator's signature)	Mailing Address of Representative	Telephone No.	Fax No.

3) Description of Facility/Process Generating Impacted Soil

4) Is the address of the facility generating the impacted soil on any of the following: a) National Priorities List (NPL) Site; b) New York State Inactive Hazardous Waste Site; or, c) Resource Conservation and Recovery Act (RCRA) waste generator or Treatment, Storage and Disposal Facility (TSDF)?

No Yes

If yes, please provide name and/or number.

Impacted Soil Information

5) Description of impacted soil including contaminant type (e.g., gasoline-impacted) and general soil type (e.g., sand, clay))(see Note 1 below)

6) Expected Total Amount of Soil To Be Delivered

_____ tons or _____ cubic yards

7) Expected Frequency of Delivery

_____ tons/day _____ tons/week _____ tons/month _____ other (specify, if known)

Transporter Information

8) Hauler Name	Address	NYSDEC Permit No.	Telephone No.
----------------	---------	-------------------	---------------

9) Method of Delivery. If other, specify.

_____ roll-off _____ dump truck _____ tractor trailer _____ other

Waste Characterization Data

10) Is the waste classified as a "listed" or "characteristic" hazardous waste as defined by USEPA, or State of origin, or State where disposed?

No Yes

If yes, explain.

11) Describe all nuisance properties associated with the waste (e.g., odors).

12) Does the waste contain any construction and demolition debris or other non-soil materials (e.g., wood, concrete, asphalt, brick)? (see Note 2 below)

No Yes

If yes, explain.

13) Is Analytical Data Attached (See below for testing requirements).

Yes No

Type of Samples (indicate No. of each type in space provided)

_____ grab _____ composite

A tiered approach based on volume of soil will be used to determine the frequency of characterizing sampling. A minimum of one sample will be collected for each approximate 750 tons (500 cubic yards) up to 1,500 tons (1,000 cubic yards) of soil. If more than 1,500 tons (1,000 cubic yards) of soil is generated from the same source, the sample collection frequency will be reduced to one sample for each additional 1,500 tons (1,000 cubic yards) of soil up to 7,500 tons (5,000 cubic yards) thereafter. The following sampling protocols will be used:

- Toxicity Characteristic Leaching Procedure (TCLP) VOCs & Target Compound List (TCL) VOCs
- TCLP SVOCs & TCL SVOCs
- TCLP Resource Conservation and Recovery Act (RCRA) & Total RCRA Metals
- TCL polychlorinated biphenyls (PCBs)
- TCL herbicides/pesticides
- Flashpoint
- Corrosivity
- Reactivity
- % solids

GENERATOR CERTIFICATION

I hereby certify that all information submitted on this form and on supplemental materials is complete and accurate to the best of my knowledge and ability to determine. I further certify that there are no deliberate or willful omissions of data necessary to characterize the waste material and that all known or suspected hazards have been disclosed.

Notes:

- 1) Tonawanda Terminals facility accepts only non-hazardous petroleum-impacted soils. Soils that contain non-petroleum (e.g., inorganics, PCBs, pesticides, herbicides, radionuclide or other non-petroleum based organic compounds) constituents above 6NYCRR Part 375 soil cleanup objectives (SCOs) for restricted commercial use are not acceptable for treatment by Tonawanda Terminals. Tonawanda Terminals accepts no listed or characteristic hazardous wastes as defined by NYSDEC Part 370 regulations.
- 2) Tonawanda Terminals reserves the right to reject any and all soils based on: analytical results; discoloration; odor; waste material; or, any reason in Tonawanda Terminals sole judgement that the soil is unfit or undesirable for treatment.
